

Daniel H. De Tolla, DDS, MD
Seacoast
Dental Implant & Oral Surgery Center

PARENT'S CORNER

• Home Care Instructions •

QUICK OVERVIEW FOR THE FIRST WEEK

01

Once you get home remove gauze pads.

02

Take your medication as directed.
It is best to be proactive in
pain management.

03

Eat something soft and cool. Be careful
to not bite your lip or tongue, as your
mouth could still be numb.

04

Brush your teeth the day of surgery.
Please start warm salt water rinses
the day after surgery.

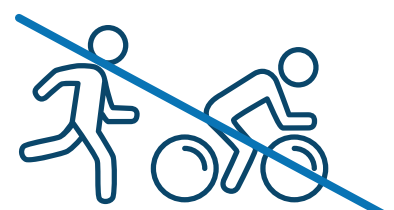

05

Take it easy for the first few days.

06

No heavy lifting or strenuous
activity for the first 5 days.

Please call **603-436-3608** for any issues or concerns.
If it is after hours please call **603-433-5405**.
